Monday, February 28th, 2017

To Whom It May Concern,

Coal Port Services has worked closely with Hunter Marine Surveyors Pty Ltd since our inception in December 2013. Hunter Marine Surveyors provide an un-paralleled service to our customers, shipping more than 30 million mt of coal per annum.

With their precision practices, attention to detail, exemplary safety record, and pro-active industry changing initiatives, I have no hesitation in recommending Hunter Marine Surveyors to all my clients, or any other bulk exporter in Australia.

Yours faithfully,

Andrew Arthur
Managing Director
Coal Port Services
